

iMATCH

INNOVATE MANCHESTER ADVANCED THERAPIES CENTRE HUB

iMATCH is a Manchester based consortium which is one of three centres in the UK to be awarded funding by Innovate UK to coordinate scale-up of advanced therapies for a range of debilitating conditions.

OUR VISION

To transform the conduct of Advanced Therapeutic Medicinal Product (ATMP) clinical studies to make them as routine to deliver as non-ATMP clinical studies.

ATMP

Advanced Therapy Medicinal Product is a medicinal product which is either:

- a gene therapy medicinal product
- a somatic cell therapy medicinal product
- a tissue engineered product

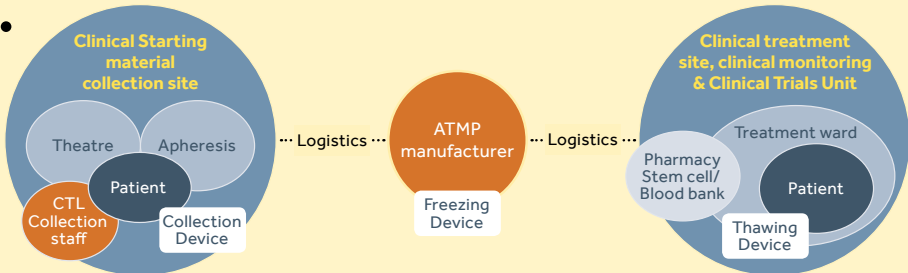

WHO WE ARE...

iMATCH unites experts from The Christie NHS Foundation Trust and Manchester University NHS Foundation Trust, The University of Manchester and 9 businesses with specific expertise in different aspects of delivering Advanced Therapies. Our 9 commercial partners are; Cellular Therapeutics, Aptus Clinical, Chaucer Life Sciences, Datatrial, Formedix, Asymptote, AstraZeneca (dECMT), AgenTus Therapeutics and The Christie Pathology Partnership.

OUR OBJECTIVES

- To maximise access of ATMP to patients through integration of sample collection for ATMP within existing infrastructure and optimisation of extraction of cellular components suitable for scaled-up processing into ATMP
- Develop electronic sample traceability and tracking systems through novel digital solutions
- Develop innovative systems of clinical data capture designed specifically to address complexity of ATMP therapies
- Scale-up in the clinical setting to meet the needs of delivery within the NHS
- Ensure safe delivery of ATMPs through education, communication and dissemination

ATMP TRAINING AND EDUCATION

Sample traceability and tracking: audit trail, logistics temperature integrity, labelling

Clinical data management: eCRF, patient enrolment, data integrity, toxicity, efficacy, follow up, outcomes

WHERE WE ARE...

MANCHESTER

- Large conurbation with 3.2M immediate catchment
- Geo-located clinical centres of excellence with track record of ATMP delivery
 - Cancer and non-cancer setting
 - Adult and paediatric
- Thriving biotechnology sector
- Unique devolved Health and Social Care budget resulting in enhanced culture for innovation
